

# TECHNICAL DETAILS

## MADE TO MESURE

- **SHAPE** : 6 basic shapes available.
- **CHOICE** : 500 aluminium styles available.

## RELIABILITY & SAFETY

- **SOLIDITY** : traditional construction with mortise and tenon joints.
- **STABILITY** : aluminium reinforcing plates.
- **HARDWEARING** : hardware accessories are rust proof.
- **AUTOMATION** : a thick aluminium bar is built-in low and middle crossbars for surface automation.
- **POWDER COATING** : the powder coating is certified 'Qualicoat' European label.
- **UP TO STANDARD** : the gates are manufactured to comply with the NF EN-13241-1 standard, which guarantees the products are perfectly safe.
- **CE MARKING** : the CE conformity declaration ensures the quality & constancy of our manufacturing activity.

## SERENITY

- **MANUFACTURING** : a 10-year guarantee.
- **POWDER COATING** : a 10-year guarantee with no factor of depreciation.
- **ENVIRONMENT** : clean material, 100% recyclable.
- **MAINTENANCE** : aluminium requires very low maintenance.
